

Sandhya Rani

FULL STACK DEVELOPER

Full-Stack developer with a deep understanding of both front-end and back-end tools. With ability to adapt to both self-starting and collaborative environments, I can manage to stay focused on the project at hand so as to deliver high-quality results under strict deadline. The objective is to be a part of an organization where I got a chance to utilize my skills and knowledge to contribute to the progress of the organization as well as myself.
