SUMMARY

Dedicated web developer with a strong foundation in both front-end and back-end technologies. Currently employed in a dynamic role as a web developer, I bring practical experience and a passion for innovation to every project I undertake. The objective is to be a part of an organization where got a chance to utilize my skills and knowledge to contribute to the progress of the organization as well as myself.

EDUCATION

B.Voc in Software Development

Guru Gobind Singh Indraprastha University

📅 2019 - 2022   📍 Delhi, India

GPA
8.9 / 10

EXPERIENCE

Web Developer Trainee

Promfly

📅 04/2024 - Present   📍 Delhi

PromFly is the digital marketing agency in India with a rapid pace development and innovative solutions for demanding projects. I work as a web developer here, responsible for building, deploying and maintaining internal web applications.

- Developed and maintained in-house and client websites utilizing a diverse technology stack, including **PHP** and **WordPress**.
- Implemented front-end interfaces and interactive components using **React.js** and **Next.js**, enhancing user experience and engagement.
- Designed and optimized **MySQL** and **MongoDB** databases to efficiently store and retrieve data, ensuring scalability and performance.
- Stayed current with industry trends and emerging technologies, proactively suggesting innovative solutions to improve efficiency and effectiveness.

Web Developer Intern

Mentorsity

📅 09/2023 - 01/2024   📍 Remote

Mentorsity -Educational and Training Consultant. I've completed 4 months of Personalized learning under the guidance of experienced mentors.

- Crafted seamless user experiences using JavaScript and modern frameworks such as **React.js**.
- Utilized **PostgreSQL** and **MySQL** databases to store and manage application data.
- Utilized **Node.js** and **Next.js** to build robust server-side applications. From handling server logic to designing RESTful APIs.
- Conducted API testing and debugging using **Postman**, ensuring the reliability and functionality of RESTful services and endpoints.

Software Engineering Intern

Skill Lync

📅 2010 - 2013   📍 Remote

Chennai-based EdTech platform, deliver quality technical education.

- Developed web applications using **Java**, **Spring MVC**, **JSP** servlet, and **MySQL**, ensuring robust and efficient backend functionality.
- Designed and implemented dynamic user interfaces with **ReactJS**.
- Utilized **MongoDB** for flexible and scalable data storage solutions, including user authentication and authorization data.
- Implemented authentication functionality with both GitHub and Google, enhancing user security and authentication processes.
